

THREE ARE KILLED IN A WINDSTORM

FATAL RESULT OF A CYCLONE AT PITTSBURG.

Tremendous Damage Done to Property—Allegheny Also Suffers From the Storm—Wires Down at New York—Bad Weather at Other Points—Storm News.

Pittsburg, Pa., July 28.—A wind and rain storm of unusual fierceness visited this city at 4:30 o'clock Monday, causing the loss of at least three lives, and doing immense damage to property. Several dwellings were completely demolished, and others partially wrecked. Eight of ten churches had their roofs blown off, and otherwise damaged. Telegraph, telephone, and electric light poles were snapped like pipe stems, mixing the wires in an inextricable mass in the streets, making travel in any section of the city impossible.

Fierce lightning and high wind accompanied the storm, or rather two storms, for Pittsburg and Allegheny were the meeting place of one storm from the west, which came up the Ohio Valley, and another from the east, which followed the course of the Allegheny River. Such a battle of the elements is rarely witnessed. In East Pittsburg and Wilmerding hail fell in large quantities, some of the stones being quite large.

In the first five minutes of the storm .58 of an inch of water fell, and the wind reached a velocity of thirty miles an hour.

At 8 p. m. another storm almost as fierce as the first came up and sixty-eight-hundredths of an inch fell, making a total of 1.33. The rivers are now rising and another flood is expected.

Among the casualties reported is an accident to the camp of the Eighth Ward Hunting and Fishing Club of Allegheny. The club was at its camp in Sugar Grove about four miles up the Allegheny River when the storm came up. The trees in the grove were broken and twisted as though they were weeds, and one large sycamore, thirty feet in circumference, was snapped off near the ground and fell upon the tent of the campers, killing almost instantly John Figus, broke the back of George Miller, who will die, and seriously injured Thomas O'Connell, Charles Kosack, Jacob Metz, Frank Ott, and Harry Hadley.

On Greenfield avenue in the East End Joseph Ashfelder was killed by a sign being blown down, striking him on the head.

In Sharpsburg W. L. Norr was killed by the roof of a house being blown onto him.

At McKee's Rocks, where Professor Gerodette, curator of Carnegie's museum, had a gang of men at work digging an old Indian mound in the interest of science, lightning struck the shed under which the party had taken refuge, shocking one of the laborers, an old man, into unconsciousness; also a young man by the name of Pool, son of a college professor, both of whom will probably die.

The result of the storm in property damage has not all been gathered in, but it is known that all through Allegheny, the south side, and the east end, many houses were unroofed, signs blown down, and windows broken. Along Penn. toward Homewood, where many fine suburban mansions are located, the splendid lawns are completely destroyed, and the beautiful shade and ornamental trees ruined. It is estimated that \$100,000 will hardly cover the loss in this locality alone.

Reports from outlying towns tell of much damage to houses and other property, but no lives are lost so far as known.

AT PHILADELPHIA.

Miniature Cyclone Passes Over the City—Little Damage Done.

Philadelphia, Pa., July 28.—A heavy rainstorm, having many of the features of a cyclone, passed over this city shortly after 6 o'clock Monday evening. Despite the hurricane violence of the storm little damage was done in this city. The storm was general in the states of New Jersey and Delaware. Lightning played many pranks with trolley and electric wires. Several barns are reported to have been struck by lightning and destroyed.

In Allegheny twelve people were struck by lightning. They are in the hospital, and considered by the physicians to be in a critical condition.

In Pittsburg much damage was done. Returns from the different sections of the two cities show twenty-five or thirty people injured more or less by falling trees, roofs, signs, etc.

West Newton, Pa., a station on the Baltimore and Ohio, about thirty miles east of here, reports the rain there very heavy. The telegram says: "A landslide 200 feet long and several feet deep is reported here on the Baltimore and Ohio tracks at Osceola. The New York express, which left Pittsburg at 9 o'clock, is stranded some where west of here. Both tracks are reported covered with trees and rocks between here and Griffin station, two miles east."

The watchman of the Pemickay road at Cedar Creek, two miles east of here, reports eight big landslides there. He says the water came off the hills like rivers, bringing everything down.

He could not get around the slides, and had to cross the river to get here.

NEW YORK CUT OFF.

Lightning Renders Telegraph Wires East and West Useless.

New York, July 28.—A storm swept over this city Monday evening, accompanied by heavy thunder, and a brilliant display of lightning. A house on the Harlem river, in which was the switchboard for the Western Union company's wires which run under the Harlem river, was struck by lightning, and all wires east and west were rendered useless. The storm between here and Philadelphia cut off many of the southern wires, and, for a short time communication with the outside world was much hampered.

Charles F. Siegle, a clerk, was killed in Eleventh street by a tree being blown down and crushing his skull.

Storm at Columbus, O.

Columbus, Ohio, July 28.—At 7:20 Monday evening a severe windstorm, followed by a heavy rain, struck this section, attaining a velocity of forty-five miles. In the country corn and other crops were blown down and trees uprooted. In this city several roofs were blown off and the damages amount to several thousand dollars. Half of the roof of the Brown Manufacturing Company's building was carried across Town street and over two houses, a distance of 100 yards. So far as reported no lives were lost.

Damage Done at Baltimore.

Baltimore, Md., July 28.—The storm here lasted about 50 minutes, and was accompanied by incessant thunder and lightning. The wind blew from the north at the rate of 35 miles an hour, the thermometer dropped 25 degrees, and in less than 50 minutes a half inch of rain fell. Much damage of a minor nature is reported.

River Rising at Cincinnati.

Cincinnati, O., July 28.—The river at 10 o'clock p. m. was near thirty-nine feet above the low water mark, and rising at the rate of two inches hourly. The weather is clear and hot.

BASEBALL REPORT.

Games Played in the National League Yesterday.

The victory of Cincinnati over Cleveland yesterday was one of the most notable of the year, and should go a long way toward giving the pennant to Ewing's men. CROPS BADLY HURT.

Three States Report Almost Total Destruction of Standing Grain.

Sioux City, Iowa, July 28.—Fuller reports of Sunday night's storm are coming in. The loss is inestimable all over northwestern Iowa, northwestern Nebraska and southeastern South Dakota. From Moline, within an area extending one mile south, three east, sixteen west, and eight north of town, standing grain everywhere suffered from five to ten bushels to the acre, and in many cases was totally destroyed. In the town itself many buildings were injured, and scarcely a whole pane of glass remains. In Plymouth county, Grant, Fredonia, Meadow, Elmond and Preston townships sustained the greatest loss. Roofs were beaten through by the force of the hail. Considerable stock was killed, and the ground was literally strewn with dead hogs and poultry. The heaviest loss was to corn, which was beaten completely to pieces. In Sioux City the loss is heavy, many buildings being ruined. The estimated damage is \$200,000.

Epidemic of Murder and Suicide.

Camden, N. J., July 28.—Mrs. Mary Hermann, 39 years old, of 917 South Fourth street, drowned her two infant children and attempted to drown herself last night in the Delaware river. Domestic troubles caused her to wish to die. When Mrs. Hermann's husband heard of her crime he attempted suicide by cutting his throat, but the police wrested the razor out of his hand before he injured himself. Wendel Seibert committed suicide by leaping from the boat Columbia. He was out of work and had a wife and seven children depending upon him. This caused despondency.

Spain Fails to Get Cruisers.

Madrid, July 28.—It is announced here that the shipbuilders of Genoa have repudiated the contract which their representative made with the Spanish government to furnish the latter promptly with two cruisers of 7,000 tons. Great excitement prevails here, as it is said that these vessels have been purchased by the United States.

"REDS" ARE BARRED BY THE SOCIALISTS

LABOR CONGRESS MAY EXPEL THE ANARCHISTS.

The Question Has Not Yet Been Decided—United States Delegates Represented at the Meeting—London Times Comment on Proposed Zollverein—Trade Interests Clash.

London, July 28.—The International Socialist Labor and Trade Union congress opened Monday in St. Martin's town hall. When the full convention had been called to order, addresses of welcome were delivered by Henry Aveling, Sidney Webb, a member of the London county council, and George Bernard Shaw of Dublin, the only socialist Irishman present, and responded to by Herrs Liebknecht, Bebel and Singer, of the German social democratic party, and delegates from Austria. The remainder of the occasion was devoted to wrangling as to whether anarchists should be admitted. The question of admitting anarchists was not decided when the session was adjourned.

A number of socialist organizations in the United States were represented by proxy, while among the delegates from that country present in person were Matthew Maguire of New York, representing the socialist labor party; Lucien Santall of the Trade and Labor alliance, and Arthur Keep of Washington, representing the Federation of Labor.

ZOLLVEREIN IMPOSSIBLE.

Premier Reid Says British Colonial Trade Interests Clash.

London, July 28.—The Times comments upon a dispatch from its Melbourne correspondent, reporting that Hon. G. H. Reid, premier of New South Wales, thinks a zollverein between England and her colonies would be impossible, because the clashing of selfish trade interests would tend to destroy the present loyalty and the zollverein might unite the rest of the world in a hostile combination with the new and substantial motive of revenge. Only Canada among the colonies, says the Times, is really desirous of a zollverein, and as the conditions of trade with Canada are altogether artificial it behooves us to diagnose more fully the nature and extent of the cause which produced the suggestion of a zollverein before consenting to a change in the whole fiscal system of the empire.

SIR JOHN MILLAIS DYING.

Noted Artist's End May Come in a Few Hours.

London, July 28.—It is announced that Sir John Millais, the president

of the Royal Academy, is now in such a critical condition that he is unable to take nourishment and that the end is only a question of a few hours.

SUES EXPRESS COMPANIES.

Indiana Attorney General Files Suit to Recover Taxes for 1895.

Indianapolis, Ind., July 28.—Attorney General Ketcham on Monday filed two suits on behalf of the state of Indiana, one against the American Express Company and the other against the Adams Express Company, to recover taxes of 1895 assessed throughout the counties in the state where these companies do business. The taxes assessed against the Adams Express Company was \$6,447.76 and against the American \$6,602.53. In each case \$12,000 is asked and also the appointment of a receiver to take charge of the affairs of the companies and conduct them until sufficient revenue has been received to pay the amount asked for in the complaints.

Trouble Loomed for in the East.

Berlin, July 28.—It is rumored here that Russia will permit the landing of Greek troops at Crete. The emperor has consequently changed the date of his return a second time. A telegram from Kiel says the yacht Hohenzollern is expected on Friday. Turkey is getting in fighting condition, and has borrowed enough money to pay for a fast torpedo catcher, built at Kiel. It is now en route to Constantinople.

Bryan May Leave Populists.

Jefferson City, Mo., July 28.—Chairman Jones of the democratic national committee arrived Monday and sent for Governor Stone. They were in conference several hours, and it is said they considered the matter of

HILL WILL BOLT HIS FRIENDS SAY

NEW YORK SENATOR FOR A THIRD TICKET.

One of His Personal Associates Authority for the Statement—Republican Campaign Orators Selected—Money Issue Has the Main Track General Harrison Says.

New York, July 28.—Senator Hill is now in favor of a third ticket. This information comes direct from a personal friend of the senator, who is a prominent democrat and the head of a big corporation here controlling millions of dollars.

The action of the populist convention at St. Louis is what seems to have caused Mr. Hill to come to a decision as to his course. He feels that his best interests lie in identifying himself with the gold men of the east. The position of the senator is outlined by the friend in question as follows:

"Senator Hill may just now possibly deny that he has decided to support a third ticket, but you will find that when the Saratoga state convention meets, Mr. Hill will be against the Bryan ticket. The New York senator is simply following in the footsteps of Flower, Whitney, Lamont and other eminent leaders in the Empire state."

Senator Hill himself continues non-committal, and the state committee, which meets at the Hoffman house today, will merely decide to call the convention at Saratoga without indicating any line of policy. This method is said to be for the purpose of waiting for something to "turn up" in the near future. That is to say, it will give the Cleveland men a chance to get their third ticket in the field in the meantime.

All doubts as to Tammany's intentions concerning the third ticket and platform was set at rest by the issue of a call for a meeting of the executive committee Friday to arrange the details for ratifying the ticket. Senator Hill and other leaders of the state organization have endeavored to induce Tammany to defer action until after the state convention, but the majority of the district leaders in the wigwam is opposed to any postponement, and the ratification meeting to indorse the Chicago ticket, including Sewall, will be held next week.

MONEY HAS THE MAIN TRACK.

Gen. Harrison Thinks the Silver Question Cannot Be Shoved Aside.

Terre-Haute, Ind., July 28.—It is said that immediately after the nomination of Major McKinley Mr. Hanna wrote to General Harrison, saying he had decided to open the campaign early and would arrange the order of things this year by bringing the big campaign guns into service at the beginning of the engagement. He requested General Harrison to prepare a speech as early as possible, and as he (Hanna) had decided to make the tariff the chief issue of the campaign, he asked the ex-president to give it the most attention. "It is our purpose," he wrote, "to give the tariff the main track and let the money issue lie on the siding as much as possible."

General Harrison sent a brief reply, in which he said he had completed his plans for the summer, and did not know when he would be able to go into the campaign. If his observation of the trend of affairs was correct, he feared the money issue already had the main track, and that the tariff was on the siding and would likely remain there. Notwithstanding the Hanna correspondence and the strained relations between General Harrison and the chairman of the Indiana state committee, it is understood the ex-president will go into the campaign, because he understands how deeply the public welfare is involved in the question at issue.

INDIANA POPULISTS.

State Convention Held Today—Divided on a Ticket.

Indianapolis, Ind., July 28.—The populists of Indiana, who are in state convention today, are divided on the question of nominating a state ticket. It looks as if the "middle of the road" representatives of the party will be in the majority. It seems probable that the national ticket will be indorsed, and a full state ticket put in the field. The leading men in the party are in favor of indorsing the democratic state ticket, but the rank and file have an impression that there is a scheme to "swallow up" the populist party, and are bitterly opposing the fusion idea. So far as can be learned the democratic state committee is doing nothing to bring about an indorsement of the democratic state ticket. No one is mentioned in connection with the nomination for governor. C. A. Robinson of Shelby county, the populist nominee for congress in the sixth district, and probably the leading man in the party in the state, said that he did not believe there was an influential member of the party who would take the nomination. "They all favor fusion," said he, "but I fear they will be beaten."

PREPARE FOR THE CAMPAIGN.

Republican Speakers Getting Their Program Ready to Begin.

Omaha, Neb., July 28.—Senator Thurston has made official announcement of the itinerary of Roswell G.

the Nebraska campaign. He will speak at Lincoln Aug. 5 at the meeting of the Republican state league and at five other points in Nebraska.

Following Horr, Senator Thurston says, Senator Burrows of Michigan, Senator Foraker of Ohio, W. E. Mason of Chicago and Benjamin Butterworth of Cincinnati will each probably make several speeches in this state, at dates to be fixed later.

Mr. Thurston will make a political address at the Chautauqua at Madison Wis., July 31, and will open the campaign in Wisconsin at Milwaukee Aug. 5 at the meeting of the Republican state convention. The latter part of August he will go to Vermont, where he is billed for two speeches. He will make one each in Maine, Boston, New York city, Baltimore, in West Virginia, two to four each in Ohio, Indiana, Michigan and Illinois. During the last weeks of the campaign he will give his whole attention to Nebraska.

To Notify Bryan in Baltimore.

New York, July 28.—William P. St. John, treasurer of the national silver party, returned yesterday from the St. Louis convention. He said: "The national silver party has accepted an invitation from Baltimore merchants to notify Messrs. Bryan and Sewall in the city of Baltimore. The notification will be made about fourteen days after the democratic notification in New York. The place of headquarters will be determined by Senator J. K. Jones of Arkansas, chairman of the democratic national committee. It looks at present as though he would select Washington for headquarters. Whatever he does will be followed by the silver party. In state and municipal affairs the national silver party will not move. This will leave the republicans to vote their own state ticket, but the national silver party will have a congressional candidate in every district where the democratic nominee favors the gold standard."

Bryan Refuses to Be Interviewed.

Lincoln, Neb., July 28.—The stream of visitors to the Bryan home was greater Monday than upon any day since the first after his arrival from Chicago. They came from all sections of the country. During the day Mr. Bryan received a number of telegrams containing suggestions in regard to the action of the populist convention, and to all of them he responded in effect that he will act with deliberation, and that nothing will be done which can be justly criticised by any of the elements who are sincerely interested in the success of the cause of bimetalism. Further than this he declined to talk in relation to the situation. Every entreating inquiry circulated to fathom his plans or purposes met with the simple response: "I must decline to be interviewed concerning the St. Louis convention or its results."

Senator Pettigrew Resigns.

Washington, July 28.—Senator Pettigrew of South Dakota, who followed Senator Teller in his bolt from the Republican national convention at St. Louis, has resigned as a member of the Republican congressional committee. The vacancy has not yet been filled.

It is said that when the Democratic national committee opens headquarters, a few days hence, one of the first subjects to be taken up will be the attitude of certain men toward the national platform and ticket, who, having been nominated as presidential electors on the Democratic ticket prior to the Chicago convention, have since that time repudiated both the platform and the ticket, and are publicly credited with the intention to vote for McKinley.

Mr. Sewall Is Confident.

Bath, Me., July 28.—Mr. Sewall, in an interview on the prospects of another state Democratic convention, says there will be another convention, and it will pass resolutions indorsing the Chicago platform. As to another gubernatorial candidate to take Mr. Winslow's place Mr. Sewall had nothing to say.

"Middle of the Road" Men Act.

St. Louis, Mo., July 28.—The "middle of the road" delegates to the populist national convention have appointed a "provisional national committee" to decide upon the future action of the populists in case Mr. Bryan should not accept the nomination tendered him or indorse the platform adopted by the convention.

Tennessee Populists Gather.

Nashville, Tenn., July 28.—Populists are here in force to attend the state convention. A. L. Mims will be nominated for governor if he will accept.

Schooner's Go Down with Crews.

St. Johns, N. F., July 28.—Two French fishing crews report that the schooner Annie Marie, with twenty-one men, was sunk in a collision with the schooner Pacific, and that the schooner Tedel, with fifteen men, foundered.

Weyler to Take the Field in Person.

Havana, July 28.—After the arrival of the re-enforcements on their way from Spain to this city Captain General Weyler will assume personal direction of the campaign against Antonio Maceo in the Province of Pinar del Rio.

Many Claims Against Spain.

Washington, July 28.—A number of claims against Spain are accumulating in the State Department on account of American citizens who have suffered in property and person from the

BADGER SILVERITES HAVE A WORD TO SAY

WHITE METAL DEMOCRATS ISSUE AN ADDRESS.

Popocrats Are Urged to Get Together and See That Silver Men are Sent to the State Convention—Reasons For their Course at Chicago.

Milwaukee, Wis., July 28.—The silver delegates to the democratic convention on Monday gave out their address to the public, replying to the letter published by the gold delegates, headed by Vilas and Bragg. The point is made that the silver delegates obeyed their instructions until the chairman of the Wisconsin delegation refused to allow the vote of the state to be cast for any presidential candidate, and that they then obtained permission from the presiding officer of the convention to cast their votes. The letter concludes as follows:

"History records prosperity from the birthday of America to 1873 under a bimetallic system of finance. A silver dollar at all times during that period equaled and in fact exceeded a gold dollar in value. The day congress by law closed the doors of our mints on silver and said thereafter gold shall measure the value of all things, even silver, then it was that gold grew dear and silver cheap, and as silver depreciated so has the price of all commodities fallen as measured in gold until ruin stares great and free America in the face. The democratic national convention in response to the call for help from the people has promised to restate the money of the constitution and thereby lift the golden yoke from America's neck."

The democrats of the state are urged to get together and see to it that silver men are sent to the state convention.

KILLED FOR AN EPITHET.

L. N. Coffee Meets Death in a Brawl at Cairo, Ill.

Cairo, Ill., July 28.—This community was shocked on learning of the terrible tragedy which took place Sunday night in which two prominent druggists of this city were the actors and which ended in the death of one of them.

The story is as follows: L. N. Coffee, who is president of the state board of pharmacy, left his store shortly after midnight to take the train for Springfield, Ill. He was accompanied by Dr. J. J. Gordon. As the two were passing G. P. Crabtree's store Mr. Coffee noticed the owner sitting in front of his place of business. The store was lighted up and the doors were open. Coffee turned to Gordon and remarked: "He is open yet," and emphasized it with a most opprobrious and disgusting epithet. Crabtree at once arose and sprang toward Coffee with the remark that he would allow no man to apply such an epithet to him.

Seeing that there was about to be trouble, Dr. Gordon jumped between the two men and called for help. The rival druggists were close together and were striking at each other, but in the excitement of the moment it was difficult to see just what was transpiring. Several young men came running over from the opposite side of the street, and one of them seized Crabtree and dragged him away. Dr. Gordon started back with Coffee to the store of the latter, but when they had gone about half the distance Coffee remarked, "I am cut," and fell to the sidewalk. He was carried into his drug store, where he died in a few minutes. Drs. Gordon and Clark examined the body of Coffee and found that he had been stabbed with a long knife or dagger. There were two wounds, either of which would probably have proved fatal. Crabtree was arrested.

The dead man leaves a wife and two children. He has been in business here for a number of years, and was formerly the employer of the man at whose hands he met his tragic death.

OUTLAWS HOLD UP A STAGE.

Border Ruffians Grow Bold in Northern Oklahoma.

Wichita, Kan., July 28.—In an only gulch several miles west of the Village of Lacey, in the northern part of Oklahoma Territory, the regular mail stage was held up Monday afternoon by a band of outlaws, who rifled the express and mail sacks, taking all the registered letters and all of the valuables carried by the two passengers in the coach. There is little doubt that the robbery was the work of the reorganized gang of "Bill" Doolin, the condemned murderer and outlaw who escaped from the jail at Guthrie several weeks ago with a dozen desperate cutthroats and robbers. A big force of United States Marshals has been in pursuit of the outlaws ever since their escape.

FLOODED BY STORMS.

Rainfall at Dubuque Heaviest in Twenty Years.

Dubuque, Iowa, June 28.—The storm Sunday night was the most severe in this section in twenty years. Railroad beds and bridges, crops and streets were washed out. Frank Faho was drowned while fording a creek near Dyersville. Streets up the hills were torn out and the debris carled down and lodged on the street railway tracks. On the Illinois Central 400 feet of track was washed out at Du-

Fire Wells Are Ordered.

Alderman McKee, from the fire and water committee, introduced an order directing the chief engineer of the fire department to put in two drive wells, one at the corner of Armour street and Eastern avenue and one on McKee boulevard for the protection of property in that vicinity in accordance with a petition from the property owners. Adopted. Alderman McKee also introduced an ordinance entitled "an ordinance relating to fire protection," and moved that it be referred to the fire and water committee. The ordinance is as follows:

SECTION 1. Whereas there are now a large number of lawn water services in use in the city, and whereas if the same are kept open during fires, water pressure would be so lessened as to endanger property and embarrass the fire department of the city, therefore all persons using lawn water services in the city of Janesville are hereby required to promptly close the same upon the sounding of a fire alarm, and to keep the same closed until the signal is given by the fire department that the fire is out.

SECTION 2. Any person who shall violate the provisions of this ordinance shall pay a penalty of not less than ten dollars and not more than fifty dollars.

o'clock a. m. The city is to furnish the lamps and posts, and the gas company to connect them with the main free of charge. The cost is \$26 per annum for each light. The committee also reported in favor of lighting the arc light in the court house park until October 1. Alderman McKee asked, if when new arc lights were put on, the contracts for each light ran for three years. City Attorney McElroy said no, that the committee's agreement was the only understanding. The reports were then adopted and an order later passed authorizing the placing of the lights as scheduled.

To Build a Sewer.

Chairman Burnham of the sewerage committee reported in favor of allowing a sewer on Center street, provided that the sewer be according to the city's plan, and laid under the city engineer's direction.

By Alderman Jones—Directing a legal notice to be served for new sidewalks on North street; also for a block crosswalk on the south side of North street at the intersection of Linn street.

Sewers Ordered Extended.

By Alderman Burnham—For a block crosswalk across Prairie avenue at the north side of Walker street; also repair the streets in the Second ward, damaged by Sunday night's storm; also that the city marshal notify all parties owning or controlling sewers emptying into Rock river to extend such sewers so that the discharging ends of the same shall be under water at all times; also notify the Ferris Ice Company to remove the obstructions to the free flow of water from the gas pond at once.

By Alderman Kothman—An order for the placing of the street lights as provided for in the report of the light committee; to serve legal notice for a new sidewalk on South Jackson street, and to clean out the gutters on South Franklin street on the north side of Oak street.

Alderman McLean then introduced an ordinance in regard to the storage and sale of gun powder and other explosives which was read and ordered published in the official paper, together with a notice that it would be acted upon at the next regular meeting of the council.

Bicycle Ordinance Killed.

Alderman McKee called up the bicycle ordinance and after it had been read, the aldermen proceeded to have some fun. Anti-coasting and anti-sidewalk riding amendments were attached to it and after a good laugh had been enjoyed Ald. McKee moved that the ordinance be laid upon the table. This motion did not receive a second, and after the amendment had been adopted the ordinance was killed by unanimous vote.

Mayor Baines announced the re-appointment of Mrs. O. H. Fethers, Wm. Bladon and Horace McElroy as members of the board of directors of the free library, their terms of office having expired and on motion of Ald. McKee the appointments were confirmed.

On motion of Ald. McLean, the council adjourned.

Lightning struck the Parker school house near Beloit, doing considerable damage, the extent of which in dollars and cents has not as yet been fully figured. Emerald Grove crops were damaged more or less, and in some instances grain was carried away by the flood. Several bridges were also damaged in the town of Bradford, and the roads washed out. The hail did not do much harm.

At Magnolia the rain did more good than harm.

Y. M. C. A. PLAN AN EXCURSION

Janesville People Given a Chance To Enjoy a Day at Pewaukee Lake.

The Y. M. C. A. are making arrangements for an excursion on a very large scale. The excursionists will go from here to Waukesha by rail, then take the electric line across the country to Lake Pewaukee, a distance of about four miles. At the lake are beautiful picnic grounds, and conveniences for boating, bathing, fishing, etc., etc. The day can be spent either at the lake or in Waukesha, or at both places, as best suits the wish of the excursionist, and the return trip will be made the same as the trip out. The cost of the entire trip including the electric car fare will be the exceptionally small sum of one dollar and plans are about perfected for a half rate for children. If this is secured the Y. M. C. A. may plan for the biggest excursion that ever left Janesville on excursion. The Y. M. C. A. are getting up the excursion in the hope of realizing enough from it to pay for a new cement walk around their building. The walk is greatly needed and this is certainly a most excellent way of getting it and a pleasant excursion it will be hard to plan. The date for the trip has not been definitely settled yet but will be sometime next week.

The First, Second, Third and Fourth ward republican caucuses will be held Tuesday evening, July 28. The Fifth ward caucus will be held Wednesday evening, July 29. Don't forget the dates.

FLOOD DAMAGE TO COST MONEY

Street Commissioner Watson Looks Over The Streets, Etc.

Street Commissioner Watson is of the opinion that the recent storm will cost the city of Janesville a pretty penny for the repairing of the culverts and streets in all sections of the city. Since the storm an extra force of men have been at work. The damage seems mostly to be in the lowlands, where the sand and dirt from the hills have completely filled the gutters and culverts. The streets themselves, in several sections of the city have been washed out and will require filling in.

TO BUILD AN ANNEX TO LIBRARY ROOMS

WORKMEN ARE NOW PUTTING
IN FOUNDATION.

Upper Floor Will Be Used For Books
and the Lower One For a Dynamo
Room—Report of the Library Directors
Submitted to the Council Last Night.

The Janesville public library rooms
are to be enlarged, and the new addition
is in course of construction by
Capt. Pliny Norcross.

Masons are now at work upon the
foundation for the structure which
will be two stories high, the upper
story to be used for the library annex,
while it is the intention to use the
lower floor for an additional dynamo
room.

The following report of the public
library directors was reported to
the council last night: The board of
directors of the Janesville Public Library
report to the mayor and common
council of the city of Janesville that
during the year ending June 30, 1896,
there was added to the library by
purchase 17 volumes of reference
books, such as encyclopedias, and
719 volumes of books for general circulation,
together with 82 volumes of
bound magazines, 25 volumes of state
and governments reports, and 30
pamphlets from the several bureaus
at Washington, making a total number
of 873 additions to the library
during the year. The accession catalogue
now showing 10,358 volumes
available for general circulation, not
including reference works and state
and general government reports.
Upon the books in the library we are
carrying a protection of \$8,000 insurance.
During the prevalence of
diphtheria in the city it was necessary
to burn 10 volumes that had been
exposed to contagion. These ten volumes
with two others that had become
worn out, have been replaced
and 330 books have been re-bound.

2,261 Books Drawn Out.

The number of books drawn out for
general reading during the year is
29,261, an increase of 2,049 over the
year ending June 30, 1895. This
number is still a little less than that
in either the year 1893 or 1894, and is
due, doubtless to the rule that the
board of directors felt constrained to
adopt over a year ago, forbidding
books to be taken by children under
twelve years of age. Some criticism
has been made of the board's action in
this matter, both by our own citizens
and by those interested elsewhere in
library work, but the board of directors
were in a measure compelled to
adopt such rule, and up to this time
we have seen no reason to return to
the old methods. We had discovered
that in many instances very
young children were drawing books
daily, and without any regard to such
books being suitable to their age, and
that they were simply "making
scores," and striving to see who could
take out the greatest number of works
within a given time. This, of course,
was entailing a great deal of useless
labor upon the librarian, to say nothing
of the wear and destruction of books;
and to correct the evil, for
such it was in our estimation, the
board of directors adopted the rule in
question. This rule does not deprive
any child in the city of any advantage
or privilege of the library; the rule
simply put a stop to an abuse that was
becoming a burden upon the library
attendants, and was rapidly destroying
books that were drawn daily from
the library, but that under no conditions
could be read.

Assistant Librarian Hired.

The patronage of the library during
the year has been in all respects satisfactory
as evidenced by the number of
books drawn out for reading and the
constant attendance at the reading
and reference tables. The largest

number of books taken in any one
day was 295, on February 15, and the
smallest number was three, on June
10, the day of the Woodmen's picnic.

Owing to the increase of the library
and the labor in caring for it the
board of directors have added an assistant
librarian to the library force, and
have secured the assistance of
Miss Matella Calkins to the position.
Mrs. Louise Best continues in the
position of librarian, and has discharged
the duties in a manner highly gratifying
to the directors and to the patrons
of the library. With the addition of
an assistant, we have been able to
keep the library open continuously
upon all days except Sundays and legal
holidays from 1:30 to 9 p. m.

Report on Finances.

The sums of money received and expended
by the board of directors are as follows:

Balance July 1, 1895.....	\$ 567.41
Library fund.....	3,000.00
Fines.....	29.85
Total.....	\$3,597.26
Rent.....	\$250.00
Electric lights.....	180.00
Librarian.....	600.00
Assistant Librarian.....	53.00
Janitor.....	180.00
Binding.....	233.45
Books.....	862.95
Periodicals.....	125.90
Insurance.....	90.00
Fuel.....	68.50
Gas.....	16.36
Ice for session.....	8.00
Drayage.....	7.20
Sundries.....	77.58
New shelving.....	46.76
Balance.....	796.23
Total.....	\$3,597.26

The above balance is sufficient to
meet all expenses of the library and
to cover orders for books outstanding
until the next appropriation is available,
and the board of directors would
request for the coming year an appropriation
of the same amount as that for
1895, feeling assured that it is
money well expended, and that in no
branch of the city government does
the taxpayer receive a better return
than he gets for the small burden that
the maintenance of the library imposes
upon him.

The Board Members.

The board of directors acknowledge
the receipt of valuable additions to
the reference books from Hon. John
Winans and from Mrs. C. E. Pierce.

UNINSTRUCTED DELEGATES.
There is general acceptance of the
belief that Rock county can serve the
republican party best by sending
uninstructed delegates to the state
convention. A degree of bitterness
has been aroused in some parts of the
state that may prove dangerous if not
allayed. A strong delegation like
that from Rock county can, if not
openly committed to any candidate,
and if acting as a unit, exert a great
influence for moderation in the con-
vention.
The delegates to Milwaukee from
all three of the Rock county districts
will be named this week. Friends of
each candidate will attempt to con-
trol the conventions. The interests
of the county as well as of the party
at large demand that they should not
succeed. It is better in every way
that level-headed, experienced men
be named and they be sent to Mil-
waukee free to act as circumstances
may dictate. Rock has been over-
looked often enough through sending
delegates bound hand and foot. This
is the year for a change.

WILL HELP MCKINLEY.
Honest money democrats declare
that the nomination of an independ-
ent democratic ticket will help and not
hinder Mr. McKinley. Everybody
knows that the contest is between
McKinley and Bryan. One of these
men is sure to be elected, and the
desire of the gold democrats is that
Bryan be not that one. Every dem-
ocrat, or nearly every one, who intends
now to vote for the republican candi-
date, will vote for him, even
though a separate ticket be put
up by his element. On the
other hand, many sound money dem-
ocrats would not vote for the republi-
can candidates in any event, and some
of these would be won over to the
Chicago ticket if a ticket by their own
faction not be put up.
An independent ticket will give the
honest money democrats a rallying
point at which they can hold the
weaker members of their element,
who might otherwise drift over to
the democratic-populist coalition.
It will give them something
to talk and work for and will en-
able them to hang on to the party
machinery, which otherwise would
fall into the silverites' hands. All
these considerations are of great im-
portance in a campaign. These dem-
ocrats intend to go back into their
party after the present campaign,
when the grip of the repudiators and
communists upon it loosened. The re-
publicans wish to see the honest
money democrats nominate a strong
ticket. That ticket will perhaps draw
a few votes away from McKinley, but
it will take a far greater number away
from Bryan. It can not get any elec-
toral votes anywhere, and none of its
supporters will expect any, but it will
help to make the overthrow of the con-
spirators who are now running the
democracy overwhelming and decisive.

Two sets of delegates are to be
named at caucuses tonight—to the
county convention and the First As-
sembly district convention, which
sends delegates to Beloit and Milwau-
kee. No other delegates will be named,
but in each ward there will be chosen
a member of the new county commit-
tee.
If the anachorats have no more solid
foundation for the expressed hope of
carrying the county than Sewall has
when he talks of carrying Maine, they
are to be pitied.
Having run his knife between the
ribs of ex-Congressman Bland at Chi-
cago, Candidate Bryan is now giving

the old man saive to put on the
wound.
The country knows what McKinley-
ism is, and likes it; it knows nothing
of Bryanism that is not calculated to
add to its distrust of it.
Growing up with the country is old,
but the idea of growing up with the
presidency, is new; also impracticable.
It seems that there are also political
army worms; they work on men's
minds in lead of on their crops.
There are people who seem to mis-
take exciting class prejudice for argu-
ment.
Bryan has no whiskers on his face,
but his ideas are full of them.

The First, Second, Third and Fourth
ward republican caucuses will be held
Tuesday evening, July 28. The Fifth
ward caucuses will be held Wednesday even-
ing, July 29. Don't forget the dates.

Centuries ago, people
used to fear what
they called the pes-
tilence. "Black
Death" was the
most terrible thing
in the world to them.
They feared it as
people now fear the
Cholera and Yellow
Fever. And yet
there is a thing that
causes more misery
and more deaths
than any of these.
It is so common that
nine-tenths of all
the sickness in the world is traceable to it.
It is merely that simple, common thing—
constipation. It makes people listless,
causes dizziness, headaches, loss of ap-
petite, loss of sleep, foul breath and distress
after eating. The little help needed is
furnished by Dr. Pierce's Pleasant Pellets.
One pill is a gentle laxative and two a mild
cathartic. Once used, always in favor. If
you are careless enough to let an unscrup-
ulous druggist sell you something on
which he makes more money, it is your
own fault if you do not get well. Be sure
and get Dr. Pierce's Pleasant Pellets.

TWO HOLD UP MEN PAID US A VISIT

DESPERATE CHICAGO THUGS
WERE HERE FOUR DAYS.

James Robinson and Frank Harper
Jump Their Board Bill at the Hotel
Myers and Go to Chicago to Do
a Bold Job—Caught in the
Act.

Two Chicago "hold up men" spend
four days in Janesville last week.

Now they are in jail in Chicago, hav-
ing been captured by a plucky Windy
City merchant.

They came to Janesville on Sunday,
they being race track followers. They
registered at the Hotel Myers as James
Robinson and Frank Harper. Harper
registered from Racine, while Robin-
son did not give his place of residence.
The police recognized the men as
crooks, and kept a close watch on
them. While here they visited all the
clothing stores in town, and looked
them over thoroughly, although they
did nothing wrong, that the officers
know of. Thursday the two crooks
"jumped their board bills" and left.
The police thought they were well rid
of them, and were not astonished
when they read in the Chicago papers,
the exploit of the two men. The Sun-
day Tribune devotes two columns to
the story, which was "store hold up
No. 21."

Caught in the Act

When the two men arrived at
Chicago, they evidently laid their
plans for the Tribune says they
went into Robertson's jewelry store,
N. 187 North Clark street, to per-
petrate the usual Saturday evening
robbery. There was a holdup as
usual, but this time it was the mer-
chant who stood behind the gun and
the would-be bad men cowered be-
fore the frowning muzzle until the
police came and escorted them to the
station. There was no attempt at
escape, for, beside hold-
ing a revolver on the men, the plucky
proprietor of the store walked around
and locked both front and back door,
and then stood leaning on the coun-
ter, holding his revolver so that the
successors of "long man, short man
and company" could see every speck of
dust on the inside of the barrel.

It was ten minutes before the ar-
rival of the police and in the meantime
Proprietor Robertson entertained his
somewhat embarrassed visitors by a
running account of the number of
times he shot a highwayman ten years
ago and how nervous his finger was
getting on the trigger.

Put in the Sweat Box

On the men's arrival at the station
they were taken into the private office
of Lieutenant Loughran and ques-
tioned concerning their antecedents—
in short, they were treated to the reg-
ular sweat-box system. They were
well dressed young fellows. They
had the tan shoes of the "long" man
and the "short" man, who are now in
the toils. One wore a ring with an
amethyst. Both wore good clothes
and had on negligé shirts. They are
touts and follow the races about the
country.

Frank Harper is twenty-eight years
of age and the other, James Robinson,
is twenty-seven. Harper's home is in
Cincinnati and Robinson came from
Kentucky, although he registered in
Janesville as coming from
Racine. They told a story of
having left the car at
Huron street to buy some peaches and
of then having gone into the store to
make a purchase. They were found
to be unarmed when searched.

BONDING THE STREET CAR RAILS

Superintendent Cummins is at work to do
Away With Electrical Action.

The street railway company is now
at work "bonding" the rails with
brass castings to do away with the
loss of current and consequent elect-
rolytic action on the gas and water
pipes. The brass castings are now
being made by H. J. Marsden and
2,400 will be used. Supt. Cummins
says that the improvement will save
the company twenty tons of coal a
month, as well as doing away with
the electrical action on the pipe. The
work will cost \$300.

FINISH HER VISIT IN STATE ASYLUM

THE SAD CASE OF MRS. LIZZIE
DUSHANE.

Taken Violently Insane While On Her
Way to See Rock County Friends,
and Is Finally Sent to Mendota Hos-
pital For Treatment, By the Authori-
ties.

Mrs. Lizzie Dushane of Northwood,
Ia., will conclude her visit to Wisco-
nsin, in the state hospital for the insane
at Mendota.

The case is a sad one.

Mrs. Dushane is about fifty-six
years old, and is well known and uni-
versally respected at her Iowa home.
She came to this city, a few days ago,
to visit at the home of Mr. and Mrs.
J. H. Boynton, who live near Emer-
ald Grove. While en route for this
city, she became suddenly insane, and
created considerable excitement on
Conductor C. M. Joss' train. When the
train pulled into the Janesville depot,
Mrs. Dushane knelt in prayer
on the St. Paul depot plat-
form, and it was with
considerable difficulty that she could
be induced to get into a conveyance.
She finally consented, however, and
was taken to the Park Hotel. A liv-
erlyman was then hired to take her to
the Boynton house. When she arrived,
however, she refused to leave the
buggy, although she was finally pre-
vailed upon to do so.

Her hobby was religion, and in-
stead of recovering her mental bal-
ance, she became worse. Finally
it was decided that some-
thing must be done with her, and
her case was brought to the notice of
the authorities. Judge Sale ap-
pointed Doctors Chittenden and
Mills to examine her, and they
reported to the court that she was
deranged, and recommended that she
be sent to the hospital. Judge Sale
accordingly issued the papers and
Mrs. Dushane was taken to Mendota
by Sheriff Appleby this morning. Mrs.
Dushane is quite well-to-do, being
worth about \$17,000. Her case ex-
cites much sympathy among her
friends, who hope for her speedy re-
covery.

EUGENE T. FISH,

POSTAL CO. BEGINS TO BUILD A LINE

TELEGRAPH COMPANY'S MEN
ARE NOW HERE.

Office Will Be Centrally Located, and
Will Be Open Night and Day—The
Route Is Selected Through the
City—Use High Poles and Copper
Wire.

The Postal Telegraph company will
open their Janesville office as soon
as several crews of men can put
up the line; and the system between
Janesville and Chicago will probably
be in running order by September 1.

So says I. W. Waterman, who is in
charge of the surveying party, and
who has been in Janesville several
days. Mr. Waterman has looked over
the ground, and has selected the
route for the line. The wire will
come into the city from Beloit. From
the Beloit road it will go to Robbins
street; on Robbins street to McKay
Boulevard; on McKay Boulevard to
Jackson street; across Jackson street
bridge to Western avenue; east on
Western avenue to River street; north
on River street to Olive street; north
on Olive street to Madison street;
north on Madison street to the Mad-
ison road, and thence to the Capital
City.

The office will be centrally located,
will be on the ground floor, and will
be open day and night. A force of
men are now at work between Janes-
ville and Rockford, and the work will
be pushed as rapidly as possible. The
line will be of copper, and will be
worked by a dynamo. The poles used
will all be in accordance with the city
ordinance, and many of them will be
higher than the ordinance requires, in
order to get the wires above the trees.

Janesville will be the headquarters
of the company for repairs and exten-
sions on the line between Madison and
Rockford, and all work of that nature
will be done from here.

SUGGESTIONS.

Out-Crepe de Chine—How to Wash It.
 Crepe de Chine is one of the best and simplest of the new fashions. Warm bran and even once a day is said to improve the skin very much. It is also excellent for the washing of silk stockings. It will not turn their color. Dry brush is excellent for polishing jewelry after it has been cleaned. The articles should be put into the bran and shaken until they are bright.
 Crinoline is often now entirely omitted from skirts, and when it is used a very light, thin quality called haircloth muslin is chosen. This has body enough to sustain summer goods and weighs much less than the thicker variety.
 In fitting the top of a skirt a dart ought never to be placed in the middle of the front. The godets may be tacked to a strap underneath or may be left entirely free.
 Crepe de Chine is much worn this summer and composes sometimes very charming entire costumes. A French authority says that it may be washed, even when it is of a delicate color, provided that the washing is carefully done. Cold water must be used and white castile soap, the water being renewed frequently. The material is to be dried and pulled into shape, but not pressed.
 Pique forms many simple and practical but effective costumes this season. Although it is not so expensive as linen duck, which is used in the same way, it is more satisfactory, as it remains crisp and fresh for a long time, while linen goods wilt and become stringy very soon. Plain white and straw colored pique are much seen, and stripes of all colors on a white ground are favored.
 The illustration given today shows to what an extreme the new style of hat has already gone. The hat in the sketch, which is tipped down on the front of the head, is composed of plaitings of white mousseline de sole fastened in the middle by a jet crescent. It is raised very high at the back, showing a large group of cherries with stems and foliage. JUDIC CHOLLET.

WRAPS AND SLEEVES.

How to Sew and Press Cloth Seams—Sleeves Large and Small.

Capes are still worn when it is not too warm for any kind of wrap.
 In making an outside garment of cloth the seams are usually made by folding one breadth upon another and stitching it down the outside in one or two rows. This gives substance and firmness as well as an effect of tailor finish. An examination of a man's overcoat or a woman's well made jacket will show just how the pieces are joined. Seams are always sewed—at least by those who know their business—from top to bottom, not from bottom to top, and sewing silk is employed except for cotton and linen fabrics.

The iron used in pressing dressmaking work or any woolen or silk goods should always be separated from the material by a piece of smooth muslin. If the iron comes in contact with the goods itself a glossy shine will be produced, quite different from the natural gloss of the fabric.

For ornamental stitching on cloth the two thicknesses should be separated by a

STREET COSTUME.

band of soft but thick worsted goods, as the stitching will then appear more evident.

Fashion is unusually lax this year, and almost anything that is becoming may be worn with impunity. Both large and small sleeves are seen, and both kinds are trimmed in every conceivable fashion. All tight sleeves have some sort of drapery or ornamentation at the top to give the accustomed breadth to the shoulders, for a sudden change from the immense puffs to absolutely no artificial increase of width would be a shock to the eye.

The illustration shows a costume for out of doors wear, the skirt of which is of plain sable silk and is untrimmed. The close fitting bodice is of broche silk, having pink and white figures on a sable ground. The short basque is very full, and the bodice opens in front over a vest of plain sable silk fastened with silver buttons and ornamented with bows of emerald satin secured by paste buttons. The plain, tight sleeves are of broche silk, and have drapery at the top of the same goods. The cuffs are of emerald satin, the cravat and wrist frills of lace.

TIRED SALESWOMEN.

EMPLOYERS SHOULD BE MORE CONSIDERATE.

Interesting Statement by a Young Lady in Brooklyn.

In the vast retail establishments of large cities, many women are employed as saleswomen.

Men formerly held the positions that

women now hold, and while women's organization is less strong than men's they are expected to do the same work. Their duties compel them to be on their feet from morning to night, and many of them, in a short time, contract these distressing complaints called "female diseases."

They occur irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhoea, general debility and nervous prostration.

They are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness.

In such cases there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following is a sample:

"My dear Mrs. Pinkham:—After writing you, and before your answer came, I was too miserable to go to the store, and so lost my position. That was five weeks ago. I am now back again in my old place, and never felt so well in all my life. The bearing-down pains and whites have left me, and I am not a bit nervous or blue. Life looks brighter to me. I don't get tired, my temper is real sweet, and I could scream right out sometimes for joy. Your Vegetable Compound is my standby. You don't know how thankful I am to you for saving me from suffering. Every woman in my position should know of your wonderful remedy. I never saw you, but I love you for being so good to me."

A BROKEN FRIENDSHIP.

It Was Terminated by a Bullet in a Frontier Town.

It was in the early days of a town in southwestern Kansas. The deadly "45" was the most respected law of the place, and daily and nightly in the half-dozen saloons which the embryo city supported was congregated as rough a set of men as could be found in any town of the size west of the Mississippi, spending the time in gambling and carousing, says the Detroit Free Press. Monarch of all the roughs was Ed Prather. He had eight notches in the handle of his trusty 45, signifying that by his hand eight human beings had been sent to their long home. Prather's bosom friend was Billy Wells and he, too, was a "bad man," in the western acceptance of the term. Damon and Pythias were not more fraternal than these two desperadoes. When one was seen the other was always near. If one got into trouble the other was always on hand to assist him. The tragic end of this friendship came one summer morning. Prather had just successfully "stood off" a sheriff and his posse, and the crowd of roughs was congregated in his saloon congratulating him, drinking to his health and celebrating the occasion by filling themselves up with what is known in western vernacular as "forty rod" preparatory to terrorizing the town. Suddenly Prather drew his revolver from the scabbard and saying: "Boys, watch me put a hole through Billy's hat," fired.

There was a yell of agony and Wells fell to the floor wounded to the death. "My God, have I killed him!" were Prather's first words. Then, throwing down his revolver, he sprang to the side of the wounded man just as the last quiver came over the prostrate form and the soul went to render its account.

For the first time in years a solitary tear coursed down over the hardened features of the man whose hands were newly stained with the blood of a fellow-creature, but, ashamed of this momentary evidence of emotion, he hastily brushed away the tear and, turning to the bar, called "Drinks for the crowd," and the carousal went on.

Thus was one more chapter added to the history of frontier life.

WHEN THE CLOCK STOPS.

Dose It with Kerosene Oil and Be Surprised at the Result.

Did you ever try doctoring a clock that wouldn't go with kerosene? If not try it next time your timepiece ceases to tick; the effect is admirable, the method simple, says the San Francisco Chronicle. If it is a clock that the oil will not injure—of metal, wood, china or marble—place it in a bowl and pour about a pint of oil into the back. Place it face downward and let it stand over night. Even if the face be of paper and gets completely soaked with the oil it will do no harm. The kerosene will evaporate within a few days and leave it perfectly clean. If after this treatment the clock will not go it is because there is something radically wrong with it. Some essential part must be broken. A little fancy enamel clock given as a Christmas present two years ago and which had never run over six hours at a time when subjected to this treatment a few weeks since has taken to behaving itself like a well-conducted timepiece. A French clock which had not gone for years suddenly took to keeping time after its kerosene bath, and a common little nickel-plated alarm clock that had apparently served its allotted term, that had lost its glass and become generally battered, started into renewed life and usefulness. The theory is very simple, of course. The kerosene cleans the works and removes any clog of oil and dust that may be interfering with the machinery. If you have any doubts about the efficiency of this treatment try it on an old and inexpensive clock first; it cannot possibly do any harm.

High Price for a Mezzotint.

A record price was obtained recently for one of the earliest mezzotints known—namely, "The Execution of St. John the Baptist," by Prince Rupert of Bavaria. The prince was long regarded as the inventor of the art of mezzotint engraving, but it has been shown that he learned it of a lieutenant-colonel in the service of the Landgrave of Hesse. The prince, who played such an important part in the civil war, introduced the art of mezzotint engraving in England. The above mentioned example is one of great rarity, and the specimen which appeared in the Chalonier-Smith sale at Sotheby's a few years ago realized about £50; the example sold and referred to above fetched the very high amount of £300.—London Times.

Where the Will Was Kept.

The original will of G. H. Blanchard of Lexington, Mass., has been filed in the probate court, Cambridge. Blanchard died some time ago, leaving a wife and thirteen children, and as no will could be found the members of the family presented to the court a copy of a will, as near as they could remember it. They were sure that the husband and father had left a will, but it could not be found. A day or two ago house cleaning began at the Blanchard house in Lexington, and the carpet in the front hall was taken up. Lying underneath some papers on the floor was the lost will, and it was taken to court and filed. The will bequeaths one-sixth of his property to his wife and the remainder is to be divided equally among his children.

God's Message.

The Gospel is not a message of wrath, a message about hell, but it is one of peace, and joy, and love, and mercy. What it teaches is alike for the individual and for society.

Slept in the Hen-coop.

"Papa, is Mrs. Bigelow very poor?" "No, Cedric, Mrs. Bigelow is well off; don't you know what a nice house she has?"

"But she sleep in the hen-coop, papa."

"Why, Cedric!"

"She said she did."

"What do you mean?"

"Don't you remember when she was here to dinner night before last she excused herself, and said she must go home early because she went to bed with the chickens?"—Harper's Young People.

Correctly Reported.

"Mike," said the superintendent, "there is a dead dog reported in the alley between Illinois and Meridian streets. I want you to look after its disposition."

An hour later the intelligent officer telephoned:

"I have inquired about the dog, and find that it had a very savage disposition."—Indianapolis Journal.

Changing Styles.

The Weeping Daughter—Oh, I shall die! Papa says that Algy and I must not think of marrying for two years yet.

"Don't cry so, dear," said the judicious mother. "Perhaps you will not want to marry him at the end of two years. Who knows but that blonde husbands will be out of style then?"—Cincinnati Enquirer.

A Misgiving.

We've seen the sweet girl graduate with high and pensive brow; We've watched her pause the multitude with wisdom to endow.

And we cannot help but doubt— If, when one short year is out, She'll remember ten per cent. of all that she is telling now.

—Washington Star.

Overworked.

Polite Doctor (cautiously)—Your husband is suffering from overwork or excessive indulgence in alcoholic stimulants—it is (ahem) a little difficult to tell which.

Anxious Wife—Oh, it's overwork. Why, he can't even go to the theater without rushing out half a dozen times to see his business partners. — N. Y. Weekly.

All Out.

"Can I see Mrs. B—?" asked the reporter.

"She is out, sir," said the servant.

"One of the family, then?"

"All out, sir."

"Well, wasn't there a fire here last night?"

"Yes; but that's out, too."—Odds and Ends.

He Was All Right.

Cholly Bubblehead (throwing down the telegram)—Aw, demmit! My aunt's will has been read, and she has left all to found an asylum for incurable imbeciles.

Grimshaw—Congratulate you, Cholly! You are always being provided for.

ONEDISEASE ANDONEREEDY

"The art of painting," said Millais, "consists in selecting the right colors and putting them in the right place." "The way to win a battle," said Napoleon, "is to mass your troops at the critical moment against the weakest spot in the enemy's line."—"The way to cure many ailments," said the great Dr. Abercrombie, "is to purify the poisoned spring in which they arise, generally the torpid and inflamed digestive system."

Thus wisdom and experience simply add condense. Thus the Shakers of Mount Lebanon reasoned when they sought, and finally found, a remedy for indigestion and dyspepsia. Where one person has something else, they argued, a thousand have this. To cure this alone will almost rid the world of sickness. Why should we vex ourselves with confusing definitions? A good digestion is life and health; a bad one disease and death. Hence, from the healing and stimulating mountain herbs, they extracted the principles which make the Shaker Digestive Cordial the rarest and most effective of remedies for one disease, and the only—indigestion and dyspepsia.

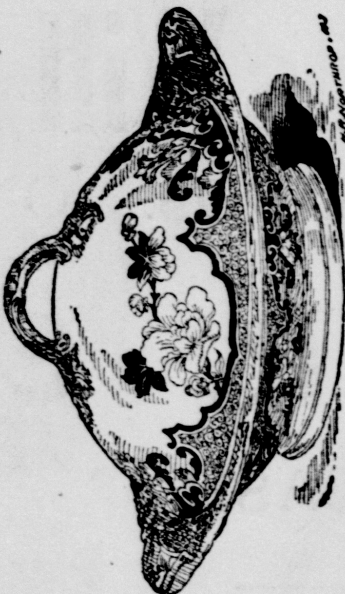

Do you suffer from any of these miserable feelings?—depression of spirits, heaviness and pain in the stomach after meals, bad taste in the mouth, wind in the bowels, irritable disposition, nervous weakness and alarm, worry and weariness, costiveness or irregularity of the bowels, nausea, palpitation, sick headache, heartburn, loss of appetite and sleep, dry skin, etc.?

Don't indulge in fifty foolish fancies. You have indigestion and dyspepsia and nothing else. Set the disordered stomach right with the one medicine which will surely do it, Shaker Digestive Cordial, and these symptoms will vanish with their cause. A good effect will follow the first doses. Even chronic cases soon yield.

Test the Cordial, at practically no cost, by taking a ten-cent trial bottle. For sale by nearly all druggists.
